DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Brion (US 551,486).

Brion discloses a belt installation tool comprising: a belt bearing surface (A,B) having a first clamp member (B') and a second clamp member (D') for engaging a pulley (see Fig 1); a first lever (B²) for pivoting the belt bearing surface about the first clamp member (see Fig 1); the second clamp member cooperatively engaging a pulley with the first clamp member for holding the belt bearing surface in a predetermined position (see Fig 1); a member (upper inside surface of A and B) cooperatively disposed with the belt bearing surface for laterally urging a belt from the belt bearing surface to the pulley (see Fig 1); and a second lever (hook part of A) pivotally engaged (C) with the first lever for urging the member (see Fig 1).

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. 368,094 Knight (levers)
